ABOUT ME

I am action-oriented and driven, with a passion for finding the nexus of creative execution and strategic thinking. I strive to achieve my best in everything I do, and always seek to exceed expectations.

With almost two decades of experience in the Marketing, Advertising, PR and design industry, and having held roles in corporates and agencies, I have experience across the marketing value-chain. I am a proficient graphic, UI and CMS front-end web designer, illustrator, writer and content creator, as well as a competent animator and video editor.

Since early 2020, I have operated predominantly remotely and am comfortable delivering outcomes and integrating into a team both in person and remotely.

For much of my career I have led teams of marketing and advertising professionals, both in managerial and mentor roles.

TYPOGRAPHIC PRINTS

GRAPHIC DESIGN, ILLUSTRATION AND LAYOUT

CLIENT / JUST A LITTLE DIFFERENT

CATEGORY / GRAPHIC DESIGN, ILLUSTRATION AND LAYOUT

During 2017, I launched a side hustle project, called *Just a Little Different*, an online shop catering to families that didn't quite fit the "mom, dad, two-point-five-children, white picket fence and a Labrador" model. As part of launching the shop, I designed a number of items, including these typographic prints and birth announcement templates.

The site has subsequently been taken down and the business closed.

During 2017, I launched a side hustle project, called *Just a Little Different*, an online shop catering to families that didn't quite fit the "mom, dad, two-point-five-children, white picket fence and a Labrador" model. As part of launching the shop, I designed a number of items, including these milestone books and bespoke My Family story books (written by my wife).

For the books I illustrated all the characters and animals, did typographical layout and pagination and overall design and layout. They were printed as 210mm X 210mm, hard cover books.

The site has subsequently been taken down and the business closed.

I designed all the graphics on the site (illustration), Art Directed the photoshoot to build a library of images for the site, produced the UI prototypes and layouts using Adobe XD, and built the pages using WordPress and Visual Composer.

I also wrote all the copy on the site, as well as the thought-leadership articles and case studies showcased on the website.

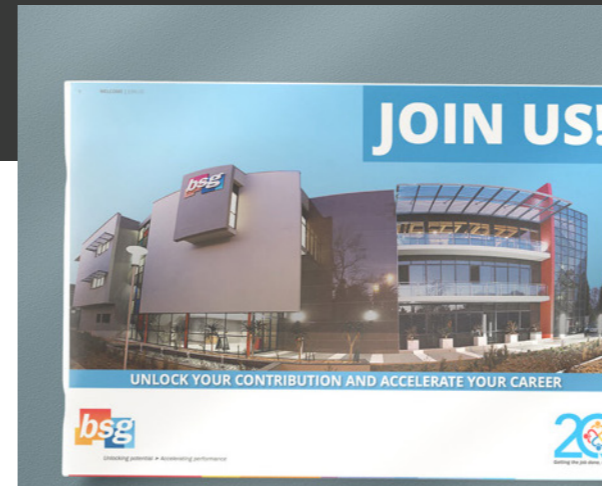

I continue to manage the site, including design and layout of new pages and artefacts, as needed. Visit the [website](#).

CATEGORY / GRAPHIC DESIGN, ILLUSTRATION AND LAYOUT

During my tenure at BSG, I managed the organisation's social media platforms and managed content planning and creation across the core social media ([LinkedIn](#), [Instagram](#) and [Facebook](#)).

To ensure consistent brand messaging and imagery, I created reusable templates, as well as custom illustrations for use across the various platforms. I also provided Art and Creative Direction to other team members creating content for various internal and external channels.

In addition to the blog content, I wrote all the website copy as part of the website refresh project and created the initial design and page layouts used by the development partner in the build. When the website was launched, I designed a refreshed PowerPoint template, more aligned to the refreshed look and feel on the website.

During my tenure at Hyperclear Tech, I led the Marketing efforts for Principa, a consulting and analytics company specialising in credit analytics.

While at Principa, I led the brand refresh project, creating a full brand overhaul including redesigned brand templates, a refreshed logo, a full brand guide and a new website.

In addition, I designed and wrote the copy for the ADMIT.credit website, one of Principa's flagship products.

A black and white photograph of a hand holding a pen, drawing a cartoon character on a piece of paper. The character has large, expressive eyes and a simple, rounded body. The drawing is in progress, with the pen tip visible on the paper. The background is dark, and the lighting is focused on the hand and the drawing.
